

Trouble Shooting:

- 1 Please fully charge the mouse for about 2 hours before using it. DO NOT over charge the mouse, in case it shortens the battery life.
- 2 If Bluetooth connection fails, please delete paired Bluetooth devices, restart your computer, turn off the mouse, then reconnect the mouse according to the "Bluetooth Mode" guide.
- 3 It's out of power if the mouse move slowly or stop moving. Simply charge the mouse.
- 4 When the mouse is not connected, please check if the power switch at the bottom of the mouse is turned on. Or turn off the mouse, move the Nano receiver to other USB interface try again.

- 5 The mouse will automatically go to sleep after long time inactivity, you can click any button to wake it up.
- 6 If you are not using the mouse for a long time, please turn off the power switch manually to save power.
- 7 Please try to stay away from strong interference sources.

Thank you for choosing our triple mode (dual Bluetooth 5.1+2.4G) wireless mouse. We provide 1 year warranty. If you get any problem, please feel free to contact our customer service team.
