

# **User Manual**

For CarPlay & Android Auto

# User Manual

---

## **(1) Wireless CarPlay — iOS Phone User**

1. Connect the box to the original car USB or Type-C data interface, Read box data and wait for a connection.
2. Turn on iPhone WiFi.
3. Turn on the Bluetooth of the iPhone, search for the Bluetooth Device naming "**smartBox-\*\*\*\***" Pair it and allow the sync, finally click "Use CarPlay"
4. After the Connection please wait for a few seconds and CarPlay interface will be shown.

## **(2) Wireless Android Auto — Android Phone User**

1. Connect the box to the original car USB or Type-C data interface, Read box data and wait for a connection.
2. Turn on Phone WiFi.
3. Turn on the Bluetooth of the Phone, search for the Bluetooth Device naming "**smartBox-\*\*\*\***" The device name will change to "Your Car MyLink" after the link is successful.
4. After the Connection please wait for a few seconds and Android Auto interface will be shown.

## **(3) If your car with wired CarPlay and wired Android Auto, both can be converted to wireless connectivity**

You can open the corresponding options through the settings of the original car (**Some machines do not need to be set up**), if you are an iPhone, open CarPlay for Bluetooth connection, if you are an Android Phone, open Android Auto for Bluetooth connection.

If the connection fails, please find "General" - "CarPlay" - "My Car" - "ignore historical devices" on your phone, then restart your phone and reconnect
